

Q1. According to the evaluation criteria (V.A page M-3), the above summaries that are restricted to 2 pages each are together worth 10 pt out of the 30. But there are also four additional categories (V.B.1 -V.B.4) for which past experience information is also required. Each of these is worth 5 pts. Do we have to address these four (V.B.1-V.B.4) areas within the two page restriction under each contract, or can we discuss each of these areas separately after presenting the five (2-page) contract summaries?

The two page restriction for summaries does not apply to V.B.1-V.B.4. However, the overall 100 page limitation for the technical proposal applies.

Q2. Should the issues raised under V.B.1-V.B.2 be broken out separately for the 5 relevant contracts discussed in V.A, or can relevant information be placed together under separate sections, such as V.B.1, V.B.2, etc..?

The offeror may organize the information in whatever way (s)he feels is appropriate.

Q3. In addition in Section V.B.1, an example report is requested for each of the five Tasks in the SOW. Are only five samples tasks required (one for each Task), or are five samples Tasks required for each of the relevant (5) contracts, for a total of 25 examples?

Only five example reports are required- one for each SOW task.
